Projects

NTUC First Campus, Singapore

July 2016 – Present

SAP Consultant at ITCAN Pte Technology

Singapore

Brief Description: This is an implementation project for NTUC First Campus in HRMS. Apart from SAP HCM, NFC does have SuccessFactors too for certain processes e.g. Performance Management, etc. Along with implementing and providing solution for SAP HCM, we are also providing solution for integration of SuccessFactors with SAP HCM.

Technology: ABAP Objects, Web Dynpro, FPM, Report, BADIs, SmartForms, Workflow

Responsibility: Working as a SAP Consultant and providing expertise on Technical and Functional aspects

Borouge, Singapore

February 2016 – July, 2016

SAP Consultant at ITCAN Pte Technology

Singapore

Brief Description: This is an implementation project for Borouge in HR/HCM module. My current assignment is on ESS / MSS for Personnel Administration, Employee Benefits, Time Management, Payroll, Personnel Development, Analytics, etc.

Technology: ABAP Objects, Web Dynpro, FPM, Report, BADIs, SmartForms, Workflow

Responsibility: Working as a SAP Consultant and providing expertise on Technical and Functional aspects

Jabatan Akauntan Negara Malaysia, Malaysia

June 2015 – October 2015

SAP ABAP Webdynpro Consultant at AMK Technology

Kuala Lumpur, Malaysia

Brief Description: 1GFMAS is an implementation project on modules mainly on SAP Finance viz. AA, AP, AR, GL, CO, CM, ABC, FM, TR, LMS. Apart from this it did have some implementation on HCM (PY & PA), MM and Custom Module GSMIS / GUMIS which deals with Government Unclaimed Money. Mostly the work I was involved were ABAP Web Dynpro Application for Portal. Apart from this I was associated with many Reports development on Smart Forms, ALV and Classic Report, Interface Programming.

Technology: ABAP Objects, Web Dynpro, Report, Interface, Smart Forms

Responsibility: Working as a SAP ABAP Consultant and providing expertise on SAP FICO and Treasury as well as Loans Management

Finance & Accounting Service Platforms

December 2010 – July, 2014

Brief Description: The various products suite that I am associated with are Accounts Payable Workbench, Vendor Portal, Invoice Registration and Coding, Web Invoice Approval, Procurement Card Solution, Customer Master Workbench. The APW is used mostly by the AP Clerks whereas Web Invoice Coding and Web Invoice Approval are used for Business Users to Code and Approve Invoice via JSP / Flex Portal. The P-Card and Xponential solutions deal with the Purchase Card Processing and auto-processing of charge files provided by different banks without much user intervention. The Vendor Portal is provided as a Suppliers Self Service Portal.

Technology: ABAP Objects, Web Dynpro, IDoc / RFC, SAP BC, JCo, Flex, BSP

Responsibility: Working as a Technical Team Lead for the project.

SAP Implementation for SABMiller, South Africa

February 2010 – December 2010

Sr. ABAP Consultant at Optimal Solution

Bangalore, India

Brief Description: This was implementation of SAP FI and Procurement for SABMiller for South Africa region. We have developed some custom Reports, Web Dynpro applications for Portal integration, some Adobe Forms reporting. We had rolled out for Global and South Africa region, in the first phase. In the next phase it was rolled out for UK, Latin America and then whole Europe continent.

Technology: ABAP Objects, Web Dynpro, Workflow

Responsibility: Worked as a Senior Developer for the project and Mentors for colleagues for any work related to Web Dynpro and OOP

Task Management, Solution Manager

December 2008 – February 2010

Sr. Software Engineer at SAP

Bangalore, India

Brief Description: Task Management is part of Solution Manager, which is shipped with Solution Manager ST 400 SP18. It provides various options to the customer to deal with tasks, which can generate from different applications. It provides a single window to maintain tasks. It has a flexible generic APIs for different applications e.g. Solution Manager Work Center to integrate it on their platforms. Recurrence Task, Alert Triggering, different media viz. email, SMS, popups notification, Task Templates, Task Archiving, Search and Retrieval of Task, Customized notification, Proxy and multiple notifications, Reporting of Tasks, etc are few of the functionalities which this product provides.

Technology: ABAP Objects, Web Dynpro, Adobe LiveCycle Designer and Microsoft Visio

Responsibility: Worked as a designer and also a developer. As being the senior most ABAP developer, I had also some responsibility to work as a mentor and guide to other developers

Issue Management, Solution Manager

June 2007 – November 2008

Sr. Software Engineer at SAP

Bangalore, India

Brief Description: Issue Management is one of the oldest tools, which was shipped with Solution Manager. It basically deals with logging issues related to an organisation let it be Managerial Issues, Hardware or Software Issues or may be as simple as some problem with execution of a small Report Program. It classifies the Issues into two varieties viz. Top Issue and Issue. Top Issues are used by upper level Managers of an organisation who are least concerned about the details. Issues are basically used by persons which are much integrated to the deep level of any components of SAP implementation in their organisation e.g. Basis People. Issues have different components that come from different aspects of Solution Manager and other applications/modules. The base of Issue was mainly on CRM. This Product has costumer more than 300 throughout the world and different lines of business.

Technology: ABAP Objects, Web Dynpro, Adobe LiveCycle Designer and Microsoft Visio

Responsibility: Worked as a designer and also a developer. I have also done some maintenance work, which ranges Solution Manager ST400 SP15 to SP17.
