3. HCM Talent Management Implementation for MAS, Singapore

Location	Monetary Authority of Singapore, Singapore
Duration	August 2016 – Present
Type of Project	Implementation
Designation	SAP Consultant
Brief	Implementation of Talent Management in HCM module for ESS and MSS. Apart from this, a custom Competency Gap Analysis Application was built for ESS, MSS user for assessing their proficiency on different competencies and recommended trainings would be proposed based on the ratings provided by self and RO. This application manages the proficiency in a competency for a staff throughout his tenure in the company irrespective of the change in his job inside the organization. It relies on PD for storage and retrieval of individual assessments.
Technology	ABAP Objects, Web Dynpro, FPM, ABAP HR, Process and Forms

4. Treasury, LMS & HCM Implementation for Jabatan Akauntan Negara Malaysia, Malaysia

Location	Jabatan Akauntan Negara Malaysia, Kuala Lumpur, Malaysia
Duration	June 2015 – October 2015
Type of Project	Implementation
Designation	Technical consultation as an SAP ABAP Webdynpro Consultant
Brief	1GFMAS is an implementation project on modules mainly on SAP Finance viz. AA, AP, AR, GL, CO, CM, ABC, FM, TR, LMS. Apart from this it did have some implementation on HCM (PY & PA), MM and Custom Module GSMIS / GUMIS which deals with Government Unclaimed Money. Mostly the work I was involved were ABAP Web Dynpro Application for Portal. Apart from this I was associated with many Reports development on Smart Forms, ALV and Classic Report, Interface Programming.
Responsibility	Working as a SAP ABAP Consultant and providing expertise on SAP FICO and Treasury as well as Loans Management
Technology	ABAP Objects, Web Dynpro, Report, Interface, Smart Forms

5. Finance & Accounting Service Platforms at WNS Global Services, Mumbai, India

Location	WNS Global Services, Mumbai, India
Duration	December 2010 – July 2014
Type of Project	Development / Support
Designation	Technical Team Lead
Brief	The various products suite that I am associated with are Accounts Payable Workbench, Vendor Portal, Invoice Registration and Coding, Web Invoice Approval, Procurement Card Solution, Customer Master Workbench. The APW is used mostly by the AP Clerks whereas Web Invoice Coding and Web Invoice Approval are used for Business Users to Code and Approve Invoice via JSP / Flex Portal. The P-Card and Xponential solutions deal with the Purchase Card Processing and auto processing of charge files provided by different banks without much user intervention. The Vendor Portal is provided as a Supplier's' Self Service Portal.
Responsibility	Working as a SAP ABAP Consultant and providing expertise on SAP FICO and Treasury as well as Loans Management
Technology	ABAP Objects, Web Dynpro, IDoc / RFC, SAP BC, JCo, Flex, BSP

Brief	This was implementation of SAP FI and Procurement for SABMiller for South Africa region. We have developed some custom Reports, Web Dynpro

applications for Portal integration, some Adobe Forms reporting. We had rolled out for Global and South Africa region, in the first phase. In the next phase it was rolled out for UK, Latin America and then whole Europe continent.

Responsibility	Worked as a Senior Developer for the project and Mentors for colleagues for any work related to Web Dynpro and OOP
Technology	ABAP Objects, Web Dynpro, Workflow

7. Task Management, Solution Manager for SAP

Location	SAP Labs, Bangalore, India
Duration	December 2008 – February 2010
Type of Project	Development
Designation	Sr. Software Engineer
Brief	Task Management is part of Solution Manager, which is shipped with Solution Manager ST 400 SP18. It provides various options to the customer to deal with tasks, which can generate from different applications. It provides a single window to maintain tasks. It has a flexible generic APIs for different applications e.g. Solution Manager Work Center to integrate it on their platforms. Recurrence Task, Alert Triggering, different media viz. email, SMS, popups notification, Task Templates, Task Archiving, Search and Retrieval of Task, Customized notification, Proxy and multiple notifications, Reporting of Tasks, etc are few of the functionalities which this product provides.
Responsibility	Worked as a designer and also a developer. As being the senior most ABAP developer, I had also some responsibility to work as a mentor and guide to other developers
Technology	ABAP Objects, Web Dynpro, Adobe LiveCycle Designer and Microsoft Visio

8. Issue Management, Solution Manager for SAP

Location	SAP Labs, Bangalore, India
Duration	June 2007 – November 2008
Type of Project	Development / Support
Designation	Sr. Software Engineer
Brief	Issue Management is one of the oldest tools, which was shipped with Solution Manager. It basically deals with logging issues related to an organisation let it be Managerial Issues, Hardware or Software Issues or may be as simple as some problem with execution of a small Report Program. It classifies the Issues into two varieties viz. Top Issue and Issue. Top Issues are used by upper level Managers of an organisation who are least concerned about the details. Issues are basically used by persons which are much integrated to the deep level of any components of SAP implementation in their organisation e.g. Basis People. Issues have different components that come from different aspects of Solution Manager and other applications/modules. The base of Issue was mainly on CRM.

	This Product has costumer more than 300 throughout the world and different lines of business.
Responsibility	Worked as a designer and also a developer. I have also done some maintenance work, which ranges Solution Manager ST400 SP15 to SP17.
Technology	ABAP Objects, Web Dynpro, Adobe LiveCycle Designer and Microsoft Visio
